Custom Jetter Trucks and Trailers

Assassin Jeters custom fit out division is leading the way in customization of the standard plumbing ute or trailer. Products like the ASSASSIN slide unit to allow you to tuck your jetter away in the back of your ute, either parallel against your head board or in the center of the ute, sliding the length of the tray allowing easy access for servicing and repair.

We will customize tool boxes and storage areas to suit your set up or as specified by you.

If you would like some ideas to design the ultimate set up that best suits your needs and will fit straight to your vehicle.

Alternately we can supply you with a brand new vehicle of your choice, completely plumbed in and ready to work.

Customise your ute today
